

ANTI SLIP TAPES

Grip-On Anti-Slip Tapes are commonly installed on slippery surface like floor or stairs to prevent accidental slips and trips.

Installation of the Grip-On Anti-Slip Tapes is as easy as simply peeling off the release paper behind the tape and pasting the tape onto the surface that requires additional friction.

Features & Benefits:

- Provide traction on slippery surfaces
- Easy installation (just peel and stick)
- High durability
- Adhere to clean dry surfaces without curling, shrinking, tearing or lifting

Product Specifications:

Brand:	Grip-On
Material Particles:	Aluminium Oxide
Holding Medium:	Solvent Acrylic Adhesive
Total Thickness:	0.85mm ~ 0.95mm
Friction Coefficient:	R13 (>0.7)
Strength of Extension:	138N/25mm
Elongation:	≥5%
Initial Adhesion:	#10
Weight:	860g/m ²
Permanent Adhesion:	≥120 hours
180° Release Force:	18N/25mm
Application Temperature:	-5 ~ 50°C
Resistance to Water:	Excellent
Resistance to Grease:	Excellent
Staining of Adhesive:	No Evidence of Migration

Colours Available:

- Black colour
- Green Colour
- Grey Colour
- Red Colour
- Yellow Colour
- Yellow-Black Colour
- Night Glow
- Translucent Type

Sizes Available:

- 5cm x 18mtr
- 10cm x 18mtr
- 15cm x 18mtr
- Others
